DETAILED ACTION

Amendment

The amendment filed on 17 January 2007 has been entered into this application.

Response to Arguments

Applicant's arguments/remarks, see pages 5-6, filed on 17 January 2007, with respect to the rejection(s) of claim(s) 1-4 and 6 under 35 U.S.C. 103(a) and 35 U.S.C. 112, Second paragraph have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

Allowable Subject Matter

Claims 1-6 are allowed over the prior art of record.

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious loading plane that is formed into a size so as to be positioned inside the periphery of said work, a receiving member that is provided outside said table and that is positioned on the generally same plane as said loading plane and the periphery of the receiving member has a plane configuration so as to come to a position further outside the periphery of the work, in combination with the rest of the limitations of the claim. Claims 2-4 and 6 are allowable by virtue of their dependency.

As to claim 5, the examiner's statement of reasons for allowance is indicated in the previous Official Action dated October 19, 2006.

Additional Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed in the attached form PTO-892 teach of other prior art alignment apparatus for aligning the central position and an orientation mark of a generally plate-like work with a predetermined position.
